RE: Request for Time Extension—Iron Mines

Dear Mr. Haddock:

I received a phone call from Mr. Jensen in your department today, thank you. He updated me on the status of the mining permit issue at the Iron Mines site, and suggested that I send you this written communication regarding a request for an additional amount of time which is necessary in order to complete the requirements.

As you are aware, Mr. Nichols applied for a new application in his name at the same site, inasmuch as he is the property owner. However, it is apparently not completed yet, because of questions about the acreage involved, and lacking a detailed map of the same.

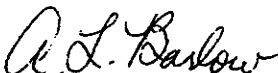

Please be advised that Mr. Nichols is in fact actively working on this with a local engineering firm, which sent personnel with GPS equipment to the site this week. I understand that the necessary detailed information you are requesting should soon be forthcoming.

We are hereby making this request for a thirty day time extension. Please notify us of your action in this matter, and what the exact dates are.

Thank you for your help.

Sincerely,

Perco Rock

A. L. Barlow, Agent
